Re: Scientific Chemical Processing Site
216 Paterson Plank Road, Carlstadt, New Jersey

Dear Ms. Cheng:

As you requested during our telephone conversation on October 1, 1987, I have enclosed a copy of the Site Operations Plan for the Remedial Investigation at the Scientific Chemical Processing (SCP) site in Carlstadt. As I explained, this plan was prepared by Dames & Moore, consultants to the group of responsible parties who will be performing the Remedial Investigation pursuant to an administrative order issued by EPA.

To date, no sampling data are available. I expect that we will have initial results this month. I will be glad to send you this data when it becomes available.

Please feel free to call me if you have any further questions, or would like additional information about site activities. I can be reached at (212) 264-0613.

Sincerely yours,

Janet Feldstein, Environmental Engineer
Site Compliance Branch
